THREAD GOURMET- A Menu of Techniques (Janome) Workshop 201 Supply List

A large printed fabric with a full motif you would like to thread paint works very well and eliminates a lot of prep work allowing us to get right into different techniques. Bring a couple- we will be working with and without a hoop, and working with a free motion foot, and without – or bring a project you are working on and need help with....

Common for all Thread Painted projects

- Thread holder, small jar, safety pin, Sewer's Aid, plastic clothes pin (these items are optional as they are tricks used if you are having trouble with thread breaking)
- Embroidery needles size 75/11 or 90/14 or Topstitch 80/12 or 90/14 or 100/16. Superior Topstitch needles are universal for all threads but if using Schmetz needles use Metallica 80/12 needles for your metallic threads.
- Fabric with a motif to work with (should be something that is substantial enough to work with-no smaller than 2 inches but no bigger than 10 inches in circumference) Bring enough that you are able to try different methods on different motifs- if confused I have some I can share to practice on!
