

Quilt Canada 2017

June 14 - 17, 2017

Toronto, Ontario

The International Centre

IN FULL BLOOM Workshop 202 Supply List

- 3 meters of Steam a Seam Lite 2 fusible web. This product has a pressure-sensitive, re-positionable adhesive that allows you to assemble your entire design prior to fusing it permanently. Because it is lightly adhered with pressure, you can change your mind about any particular fabric at any time, even in the final stages, and your design sticks together while building it. Please do not bring any other brand of fusible web. You will require 3 meters if your Steam a Seam is 12" wide; 2 meters if it is 18" wide, and 1-1/2 meters if it is 24" wide.
- 1 (one) meter of light-weight muslin. We are going to build the flower on this muslin base. The muslin must be light enough that you can see the black lines of the pattern through it to allow tracing of the pattern.
- Black Pigma Micron marker (available at many quilt shops or Michaels) in size 05 or 03.
- Masking tape
- Fabric Scissors

* No sewing machine required for this class as you will need the full day for building your flower.

Students can bring their own fabric if they wish, but they should email me for exact fabric requirements. students should also email me to indicate which hand-dyed fabric kit they want.
