

Collecting Big Quilt Bee Quilts for Ronald McDonald Houses

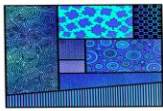

Thank you for so generously supporting CQA/ACC and Ronald McDonald House Charities to celebrate Canada's 150th anniversary. Did you know that in 2015, a total of 13,260 families were helped by Ronald McDonald Houses across Canada?

Since Ronald McDonald House Charities are located across the country we have arranged a network of "collectors" in different areas in Canada to collect completed Big Quilt Bee quilts. These collectors will keep track of the quilts received and will deliver them later in the year to the appropriate RMHs. **Please either mail or deliver your finished quilts in person to your closest collector.** Below you will find their contact information.

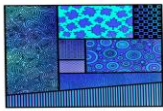

To reduce costs if you are mailing quilts, please choose the postal code closest to your own, even if it is not in your province or territory. Postage costs are calculated by postal code to postal code. This means the costs are minimized if you select the collector with the closest postal code. Please reduce the packaging to reduce postage and environmental impacts.

If you have slab blocks or quilt tops that need to be finished into a quilt at the Big Quilt Bee at Quilt Canada please mail them to: Leslie Whitby, 2895 Almonte Road, Carp, ON K0A 1L0. Most will fit into regular envelopes or 9 by 12 brown envelopes to reduce postage costs. Please avoid boxes as they are priced according to total dimensions and are more expensive.
